A smiling man in a white thobe and ghutra, with a teal overlay and abstract geometric shapes. The man is on the right side of the image, looking slightly to the left with a warm smile. The background is a blurred outdoor setting. The teal overlay covers the entire image, with a white diagonal shape on the left containing the text. Several semi-circular shapes in white and light grey are scattered across the teal background.

## Membership Benefits

## **First Notifications Services:**

It is a service in which members participating in “SASO’s services membership” get notified (according to the benefits of each category) on the various activities and programs that SASO carries out (during the membership period). These activities and programs are as follows:

01

## **Training courses organized by SASO's Training Center:**

SASO is considered a scientific reference specialized in the fields of issuing standards and Quality certificates and examining commodity samples. According to a scientific environment based on professionalism and transparency. In order to provide the opportunity for all those wishing to benefit from the services related to the field of its technical work, a special training center was established to provide its activities and programs according to scientific foundations with the help of a group of the best expert, consultant firms and specialized trainers. Members also can receive notifications on the latest training programs organized SASO's training center.

02

## Standards Update

Based on the essential Law of SASO, issuing the Saudi standards is one of the most important tasks and activities carried out by SASO with the aim of setting standards, conditions and technical requirements that must be provided in commodities and products to achieve an acceptable level of quality to maintain health and safety of the consumer. Keeping abreast of developments and changes is one of the most essential elements to be taken into account when preparing standards. Therefore, SASO works to update Saudi standards continuously and when needed.

03

## Events organized by SASO:

Based on SASO's keenness to share with all bodies (government, private, individuals) the latest practices and developments related to the nature of its work, SASO annually organizes many occasions, events and seminars based on its main work topics.

the most important of these events are:

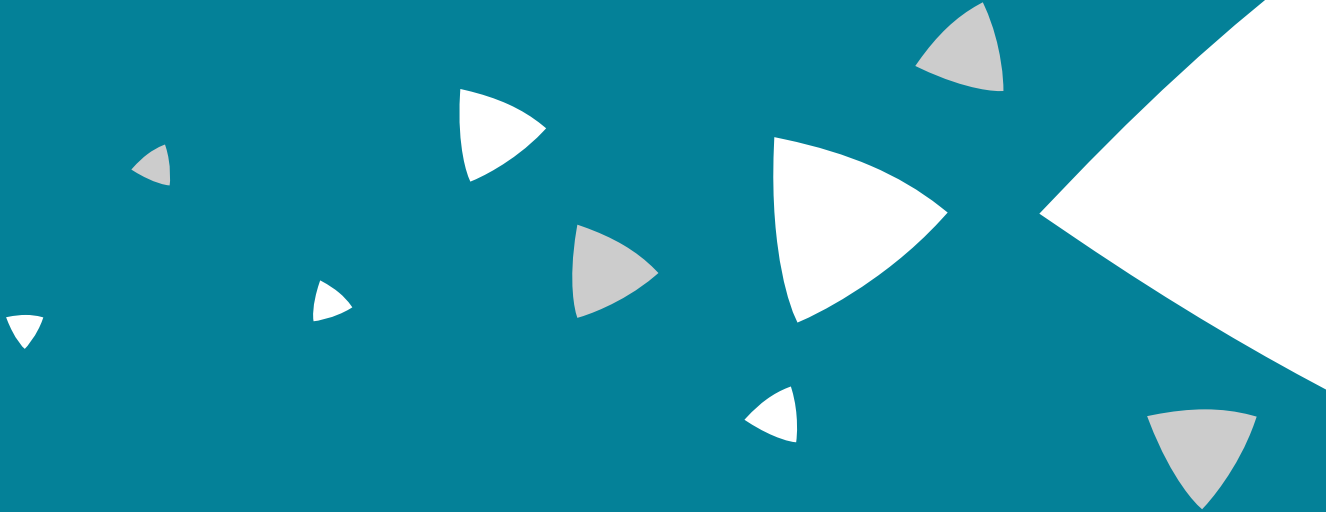

- » Annual quality conferences and forums.
- » Specialized forums for manufacturers.
- » Lectures, Seminars and workshops in the fields of (Standards, Metrology, Quality Systems).
- » Introductory workshops on the most important new updates to standards.
