**SAUDI ARABIA CORPORATE AVERAGE FUEL ECONOMY  
STANDARD (SAUDI CAFE)  
FOR  
INCOMING LIGHT DUTY VEHICLES  
(SASO 2864:2019)**

**Fuel Economy Performance Review  
Year-End 2020**

## Summary:

The objective of Saudi Arabia Corporate Average Fuel Economy Standard is to set the fuel economy performance requirements for all light-duty vehicles (i.e. passenger cars and light trucks) incoming to the Kingdom of Saudi Arabia, which includes vehicles imported or vehicles locally produced for the intent of sale in the Kingdom of Saudi Arabia. The standard is part of Saudi Arabia's integrated approach to improve energy efficiency in the transportation sector.

As SASO/SEEC commitment to provide all automotive manufacturers with their new light-duty vehicles fuel economy performance, credits obtained during the same enforcement cycle, and the accrued credit balance, an annual report will be published for each enforcement cycle. This 2020 report will be made public and published on SASO portal and will include the mentioned details for all automotive manufactures.

SASO/SEEC has collected imports data for all new light-duty vehicles imports to the Kingdom of Saudi Arabia and based on that these results were calculated. This report should give an overall look of the performance of Automotive Manufacturers. The mentioned results are final.

## 2020 Year-End Credit Summary
